

Carrier

Energy Optimization Program

Delivering Sustainable Savings

Energy Evaluations

Carrier has proven, ready-to-install products to help customers reduce their energy usage by as much as 40%*, while also reducing their carbon footprint. As part of this program, **Carrier will offer on-site energy evaluations during which highly trained Carrier team will provide custom recommendations** on how to reduce energy consumption at the customer site.

Energy Optimization Program

Get an Energy Evaluation

On-site visits include:

- Valuable tips customers can implement immediately to reduce energy consumption.
- Basic audit of energy usage at store and provide custom recommendations for energy conservation modernizations and ready-to-install products specific to business needs.
- Optional: In-depth analysis of energy usage, subject to additional cost.

snacks

**Contact energysaving@carrier.com
to schedule an on-site energy evaluation today.**

** Depending on the cabinet model and/or mechanical system, as well as optional equipment selected during configuration and different environmental conditions, the energy saving potential for the cabinet and/or mechanical system you are using may deviate. The values given are comparisons between the operation of the cabinets and/or mechanical systems without and with the additional services offered through the Carrier Energy Optimization Program (referred to as "Energy Savings Solutions"). The Energy Savings Solutions available from Carrier can be accessed and viewed at <https://www.carrier.com/sustainable-savings>.*
