Provides simple, flexible and high-efficiency solutions for all formats.

Our solutions...

... adapted to your needs

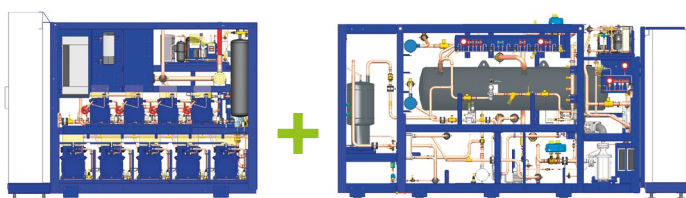

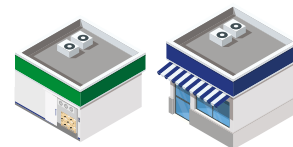

MiniCO₂OL® Compact with integrated High Efficiency Module

LT Cooling capacity 0–92 kW

MT Cooling capacity 30–260 kW

Covering discounter to supermarket applications

MiniCO₂OL® Compact

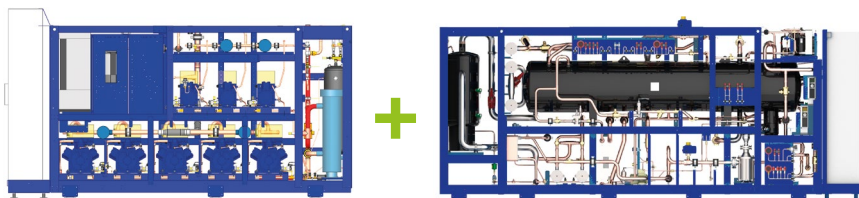

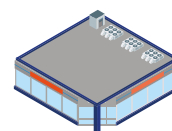

High Efficiency Module

LT Cooling capacity 0–110 kW

MT Cooling capacity 20–391 kW

Supermarkets

MaxiCO₂OL® Compact

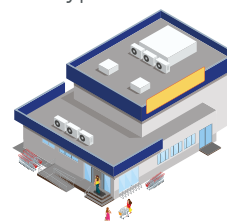

High Efficiency Module

LT Cooling capacity 0–450 kW

MT Cooling capacity 200–600 kW

Hypermarkets

Best-in-class

- High efficiency in all climates
- Patented modulating vapor ejector assisted by a CO₂ pump

Pay back

- Attractive return on investment
- Reduced cost of the main electrical power supply
- Up to 30% energy savings*

Flexibility

- Compact design
- Choice of control types (Carel, Danfoss, Eckleermann)
- Multiple options available

Simplicity

- Simple system layout
- Superior serviceability
- Enhanced reliability

* Example given for 3 MT + 2 LT compressors configuration with 260 liters liquid receiver
